Seminar Thesis Template

Simon Harrer

simon.harrer@uni-bamberg.de

I. INTRODUCTION

TBD

II. RELATED WORK

TBD

III. CONCLUSION AND FUTURE WORK

TBD

IV. REFERENCE DESCRIPTIONS

A. Questions for Every Reference

1) What is the problem addressed in this reference?
2) How (well) did they solve it?
3) How does this relate to your problem/research?

B. Answers

1) [1] address the problem of bad and unmaintainable code.
2) [1] provide a unique didactic approach through before/after comparisons to show how to improve code through small steps.
3) My work is about teaching thousands of students Java.
